

### **Math Grades for Junior High and High School**

- All of the assignments of each chapter must be completed before taking the test.
- Grades are based on an average of the percentages achieved on tests, the quarterly grade for class preparedness, and the quarterly letter grade for daily assignments.
- At the discretion of the teacher and principal approval the daily requirements can be modified for an individual student. Students and parents will be clearly informed of any change.

#### **Chapter Grades**

Chapter grades are based on the test grade earned for each chapter as follows:

A+	100%
A	90-99%
B	80-89%
C	70-79%
D	60-69%
E	< than 60%

If a student earns a "C", "D", or "E" on a test, the teacher has the discretion to have the student re-do part of the chapter and repeat the test, re-do the whole chapter and the test, or have the student repeat lessons back to where understanding was complete. If a test needs to be re-taken, the new grade earned will be averaged in along with the old test grade.

#### **Daily Written Work**

- Daily assignments should be completed in class.
- If the student does not complete the daily assignment during class it will be considered homework and needs to be turned in no later than the following day at 8:30 a.m.
- Daily assignments turned in after 8:30 a.m. will be counted as late.
- Class preparation is defined as having all the materials necessary for math ready to begin working within the first two minutes of the period.
- Letter grades will be adjusted if necessary according to the amount of times daily assignments are turned in late during the quarter and how many times a student is unprepared for class.
- Daily assignments, in order to be accepted as complete must:
  - Have a score of 80% or higher
  - Work is neat and up to class expectations
